Magnetic Sheeting, Strips & Profiles

Professional Magnet

Educational Magnet

PRODUCT	STRUCTURE	TOTAL THICKNESS (micron)	FINISH	PULL (g/cm ²)	AVAILABLE		PRINTABILITY
					widths (mm)	lengths (m)	
STANDARD MAGNETIC SHEETING IN ROLLS	WHITE Plain brown magnet + white PVC	500	matt	18-22	615 - 1000		Solvent / Screen Printing
		500	gloss	18-22	1000		
		600	matt	28-30	615 - 820 - 1000		
		850	matt	46-48	615 - 1000		
		850	gloss	46-48	615		
	Plain brown magnet	400	matt	18-22	1000		To be laminated with a printed media
		500	matt	28-30	615 - 1000		
750		matt	40-44	615 - 1000			
PVC for lamination	White	100	gloss	140g release paper	1060	50	Self-adhesive for low-density surfaces
Magnetic Sheeting for Digital Printing	WHITE Plain brown magnet + white PVC	350	matt	15-18	1000		Solvent / Eco-solvent / UV
		500	gloss coated	18-22	1000		
	Plain brown magnet + white PET	300	matt	8-10	1270		
Magnet & Steel for Wall Mounting	Plain brown magnet with adhesive	600	matt	28-30	615 - 1000		To be combined with steel films
	 White PET + steel coating	200	matt	-	1270		To be applied to magnetic walls
	Plain brown adhesive magnet tape with dispenser	300	matt	6-8	19		To be combined with steel films, plastics, etc.
Magnetic Strips & Profiles	C profile Plain brown magnetic strips	1200	matt	55-75	20 - 25 - 30 - 40 - 50 - 60		For shelf labelling
	Plain profile Plain brown magnetic strips	1200	matt	58-68	25 - 30 - 40		For toys & holders
	Plain brown magnetic strips with adhesive (for POP-UP structures)*	1500	matt	70 g/cm	12,7 (1/2 inch)		A pole (white liner)
				12,7 (1/2 inch)		B pole (red liner)	
	140 g/cm			25,4 (1 inch)		B pole (red liner)	

* Pop-Up structures are usually already equipped with B-pole strips. To mount the media, use A-pole strips.
All magnetic sheeting and profiles are at the isotropic level.

The NEW PET media back treated with steel vernish adaptable to all magnetized walls. Suitable for any kind of equipment, for UV & eco-solvent inks.

INFORMATION

On demand: Aluminum Composite Panels : all the thicknesses, colours and widths up to 2.01m are available.

Direct import: Full Container Import is available for all the ranges of product.

Stock: all the materials mentioned in the charts are on stock.
